Summary

B.Tech Computer Science student (2027) with hands-on experience in backend web development using Flask and relational databases. Worked on authentication systems, REST APIs, and data-driven web applications. Comfortable collaborating, debugging backend logic, and building functional projects for internship roles.

Skills

- **Languages:** C, C++, Python, Java, SQL, HTML, CSS, JavaScript
- **Frameworks & Tools:** Flask, SQLite, PostgreSQL, Bootstrap, Git, GitHub, Render
- **Concepts:** DSA (LeetCode), REST APIs, Authentication, JWT, TOTP, Session Handling, Debugging

Projects

SecureAuth — Two-Factor Authentication Web App

Flask, PostgreSQL, bcrypt, JWT, TOTP, HTML/CSS

GitHub

- Developed a secure authentication system using Flask and Time-Based OTP (TOTP) compatible with Google Authenticator.
- Implemented QR-based OTP setup, password hashing with bcrypt, and JWT-based authentication.
- Handled session management, form validation, and protected route access using decorators.
- Collaborated with peers to debug backend logic and strengthen authentication workflows.

Route Wise AI

Python, Flask, JavaScript, Genetic Algorithms

GitHub

- Designed and developed an intelligent traffic navigation system using Python, Flask, and JavaScript.
- Applied Genetic Algorithms and 2-opt heuristics to optimize multi-stop routes in real time.
- Integrated MapQuest, TomTom, and OpenWeatherMap APIs for live traffic and weather data.
- Built a Scikit-learn model to predict route delays with over **91% accuracy**.
- Achieved route computation times under **10 seconds** with mobile-friendly support.

Real-Time Learning Scheduler

Flask, SQLite, Chart.js

GitHub

- Built a personalized study planner adapting schedules based on workload and fatigue levels.
- Implemented Greedy, Knapsack, and Dynamic Programming algorithms for task prioritization.
- Developed backend services using Flask and SQLite with real-time analytics dashboards.
- Enabled tracking of **50+ academic goals** to improve consistency and productivity.

Education

Year	Degree / Exam	Institute	GPA / Marks
2023 – 2027	B.Tech in Computer Science	Graphic Era Deemed University, Dehradun	8.35
2022	Class XII (CBSE)	The Avenue Public School, Meerut	93.6%
2020	Class X (CBSE)	The Avenue Public School, Meerut	76%

Achievements & Certifications

- Worked extensively on backend development concepts including authentication, authorization, and API design through academic and personal projects.
- AWS Learning Track — Technical Essentials, IAM Basics, Shared Responsibility Model, DevOps on AWS.
- Participated in peer debugging sessions focused on Flask routing logic, database issues, and backend flow correction.
- Actively involved in project-based learning and regular mentor evaluations as part of academic coursework.
